Summary

MCA graduate and Full Stack Developer with professional experience in MERN stack development. Skilled in React.js, Node.js, Express.js, MongoDB, RESTful APIs, and responsive web applications. Seeking a Full Stack Developer role to contribute technical expertise and build scalable, maintainable solutions.

Skills

Backend: Java, Node.js, Express.js
Frontend: HTML5, CSS3, JavaScript, React.js
Databases: MySQL, MongoDB
DevOps & Containers: Docker, Kubernetes
Tools: Git, GitHub, Postman, Figma

Experience

Hisanlabs Pvt Ltd - Full Stack Developer

Aug 2025 - Present

- Developed a full-stack Clinic Management Application using React.js, Node.js, Express.js, and MongoDB, supporting 3 role-based dashboards for Admin, Receptionist, and Doctor
- Implemented Role-Based Access Control (RBAC) to manage permissions and secure access across 3 user roles.
- Developed RESTful APIs to handle core functionalities such as patient management, appointments, and user authentication.
- Implemented JWT-based authentication and authorization to secure protected routes and manage user access.

Alphawizz Technologies Pvt. Ltd. - React Developer Intern

Jan 2025 - May 2025

- Developed responsive web applications using React.js, implementing reusable components and integrating RESTful APIs to improve functionality and cross-device compatibility. • Integrated RESTful APIs to fetch and manage data efficiently within applications.
- Utilized React Hooks and Context API for effective state management and improved application scalability.

Projects

Clinic Management Application – MERN Stack

- Developed a full-stack clinic management application using React.js, Node.js, Express.js, and MongoDB, featuring role-based dashboards for Admin, Receptionist, and Doctor.
- Developed RESTful APIs for patient management, appointment scheduling, and user management with CRUD operations.
- Implemented Role-Based Access Control (RBAC) and secure authentication to manage permissions and protected system access.

Travel Planner Website – MERN Stack

- Developed a full-stack travel booking web application using React.js, Node.js, Express.js, and MongoDB for managing travel packages, user data, and bookings.
- Implemented CRUD operations for travel listings, user management, and booking workflows.
- Integrated JWT-based authentication and authorization to secure protected routes and user access.

Education

Master of Computer Applications (MCA)
Medicaps University, Indore

Aug 2023 - May 2025

Bachelor of Computer Science (B.Sc.)
DAVV, Indore

Aug 2020 - May 2023
