Summary

MCA graduate with internship experience in web development and MERN stack technologies. Skilled in building responsive web applications, integrating REST APIs, and solving programming problems. Strong foundation in computer science fundamentals including DBMS, OOPs, and Data Structures. Seeking an Associate System Engineer role to develop scalable software solutions and grow professionally.

Skills

- Backend: Java, Nodejs, Express.
- Frontend: Html, Css, JavaScript, React.
- Tools & Platforms: Github, Postman, Canva, Figma.
- AI Tools: Chatgpt, Claude, Cursor.
- Container: Docker, Kubernetes.
- Databases: MySQL, MongoDB.

Experience

Alphawizz Technologies Pvt. Ltd. - Intern React Developer | Jan 2025 - May 2025

- Developed responsive and dynamic web applications using React.js, ensuring cross-device compatibility and performance optimization.
- Integrated RESTful APIs to fetch and manage data efficiently within applications.
- Utilized React Hooks and Context API for effective state management and improved application scalability.
- Built reusable components and enhanced UI/UX by writing clean, maintainable, and efficient code.

Hisanlabs Pvt Ltd - Full Stack Intern | Aug 2025 – Present

- Developed a full-stack Clinic Management Application with role-based dashboards for Admin, Receptionist, and Doctor
- Designed and implemented role-based access control (RBAC) to manage permissions across different user types.
- Developed Restful APIs to handle core functionalities such as patient management, appointments, and user authentication.
- Integrated secure authentication and authorization mechanisms to ensure data privacy and controlled system access.

Projects

Clinic Management Application (MERN Stack)

- Designed and developed a full-stack clinic management application using React.js, Node.js, Express.js, and MongoDB**.**
- Built Restful APIs for patient records, appointments, and user management with CRUD operations.
- Implemented React Hooks and Context API for efficient state management and reusable components.
- Implemented Role-Based Access Control (RBAC**)** with dedicated dashboards for Admin, Doctor, and Receptionist**,** ensuring secure and controlled access to system functionalities.
- Built responsive, dynamic, and user-friendly UI components using React.js, enhancing user experience across devices.

Travel planner website – MERN Stack

- Developed a full-stack Travel Booking Web Application using MERN Stack (React.js, Node.js, Express.js, and MongoDB) for managing travel packages and bookings.
- Implemented CRUD operations for travel listings, user data, and booking workflows to ensure smooth functionality.
- Integrated secure authentication and authorization using JWT, ensuring protected routes and data security.
- Performed testing and debugging to ensure a stable, scalable, and production-ready application.

Education

Master of Computer Applications (MCA) Aug 2023 - May 2025
Medicaps University Indore |

Bachelor of Computer Science (BSC) Aug 2020 - May 2023
DAVV Indore |
